

Referrals to Voices for Children:

Voices for Children is committed to assigning CASAs to the cases of all dependent children who are in need of our services. VFC serves abused and neglected children **who are dependents of the San Diego County Juvenile Court** only. We're sorry but we are unable to provide services for children who are a part of the delinquency system/wards of the court, who are going through child custody proceedings or who are dependents of another county.

We accept referrals from any interested party and the source of our referrals is always kept confidential. Please understand the demand for CASAs far outweighs our current resources. Our waiting list, on average, consists of 300 children, but we strive to assign CASAs to children as quickly as possible.

Child Referral Form
