Uplifting Voices

MAY 13 | DEL MAR PLAZA, OCEAN VIEW DECK

Registration is now open for Voices for Children's second annual Uplifting Voices event. Join event committee members Andrea Moser, Kristi Pfister, Lauree Sahba, and Michelle Weinger for an afternoon of inspiring stories from the Court Appointed Special Advocate (CASA) program, philanthropy, and fun to lift up the voices of our community's most vulnerable children in foster care. The program will feature a dynamic conversation with special guests Elizabeth and Stephen Wampler. The nationally and internationally acclaimed film *Wampler's Ascent* documents Stephen's accomplishment as the first person with cerebral palsy to climb El Capitan in Yosemite National Park. The Wampers now lead the Stephen J. Wampler Foundation, inspiring children with disabilities to achieve their dreams and lead fulfilling lives. Their work is particularly relevant to Voices for Children's mission, as nearly one-third of children in foster care live with physical or intellectual disabilities. CASAs play a crucial role in advocating to ensure their needs are met. speakupnow.org
